

FINANCIAL AND COMMERCIAL.

TUESDAY, MAY 12—P. M.

The gold market was heavy on the street before the opening of the board this morning, and sales were made at 130 1/2, but the earliest transactions in the room were at 130 1/2, following a reaction to a decline to 129 1/2, and a subsequent advance to 130 1/2, with the market at the "High Court of Impeachment" adjourned until Saturday without taking a vote exerted no perceptible effect upon the premium or the current of speculation, although the adjournment was generally regarded as favorable to the President's acquittal. Had the premium been previously run up in anticipation of his removal a sharp relapse would probably have been the result; but this not being the case there was little or no margin for a fall beyond that which took place last evening. Various rumors were in circulation during the afternoon with regard to the final result of the trial. One of these was to the effect that on Saturday the Senate would further adjourn without voting on impeachment, in order to enable its members to attend the Chicago Republican Convention; and another that new radical Senators would probably be admitted if necessary. In order that their votes might be taken on the trial of the case to decide upon the course the Senate may see fit to pursue, it is to be hoped that it will be of a decisive character, for nothing could be worse than the prevailing suspense in restricting business of all kinds. There was a moderately active borrowing demand for coin, and loans were made without interest and at 4 1/2 per cent per annum for carrying. The gross clearings amounted to \$55,000,000, the gold balances to \$1,800,000 and the currency balances to \$2,761,171. The steamer Allegheny, from Hamburg, took out \$534,575 in specie.

Money was in abundant supply to the Stock Exchange at 6 1/2 per cent, first class borrowers being generally accommodated at the lower rate. The demand was not large, owing to the dullness of speculative business, and the wants of the mercantile community are so limited a scale that commercial paper affords employment to a considerable portion of the loanable funds pressing upon the market. Balances were in some instances left with the leading dealers in government securities at five per cent; but this rate was entirely exceptional. It is probable, however, that within a few days it will become general on pledges of United States stocks, the national banks giving these a decided preference over all other collateral.

The stock market was dull, but on the whole firm, during the day, with a few exceptions, Fort Wayne among the number. This stock was heavy under sales to realize by parties who have only just made themselves acquainted with its real value, and who were previously laboring under the delusion that it was a sound ten per cent stock. The fact that the company sold fifteen thousand shares of new stock last year for \$1,215,000 shows that the dividends came from, and it will be perceived that this stock is not a speculative price under ninety, so that it is now selling for above eighteen per cent more than the company was willing to accept for it. The only visible signs of approaching activity at present are in Erie and New York Central, which have had an upward tendency all day. The adjournment of the Senate was a source of disappointment to the bulls, as they rely upon the termination of the trial to impart animation to the speculative movement in railway shares. Following this settlement the financial question will engross the attention of Congress, and the Western financiers and the Eastern hard money men, the protectionists and the free traders, will struggle desperately for the mastery. The end which should be kept in view in the midst of the attendant excitement embraces the improvement of the public credit, the appreciation of the value of the currency, the reduction of the public expenditures, and to adjust any part of the financial machinery of the country to the remaining parts to be invited to deal.

Government securities were lightly dealt on an speculative account during the day, but the home investment demand was about as large as usual, although there was only a limited inquiry for the exportable bonds from the German bankers. The Assistant Treasurer was a buyer of seven-thirty notes to the amount of a million. The present dullness is merely a temporary lull in the upward course of the market, and with the final settlement of the impeachment question a fresh impetus will doubtless be imparted to prices. Those having compound interest notes maturing on the 15th inst. which they wish to have redeemed in currency must forward them to the Treasurer of the United States at Washington for the purpose of this stock to adjust any part of the financial machinery of the country to the remaining parts to be invited to deal.

At the commencement of business the stock market was dull and steady, and at the early session of the open board New York Central sold at 127 1/2, Erie at 69 1/2, and Erie at 69 1/2. At the first regular board the volume of business was light. Erie closed 1/2 higher than at the same time yesterday, Michigan Southern 1/4, Cleveland and Pittsburgh 1/4, Rock Island 1/4, Northern and Western Union Telegraph 1/4, and Reading was 1/4 lower. Northwestern preferred 1/4, Fort Wayne 1/4, and Pacific Mail 1/4. Government securities were dull at a fractional decline in some instances. At the open board on one o'clock prices were slightly higher for Erie and New York Central, the former selling at 69 1/2, and the latter at 127 1/2, but Fort Wayne declined to 105 1/2, and speculation was languid. At the second regular board Erie and New York Central were strong, but other stocks were barely steady and Fort Wayne was dropping, with sales at 105 1/2. New York Central closed 1/4 higher than at the first regular board, Erie 1/4, Northwestern 1/4, do preferred 1/4, and Milwaukee and St. Paul preferred 1/4, while Michigan Southern was 1/4 lower. Fort Wayne 1/4, and Cleveland and Pittsburgh 1/4. Government securities were dull but steady. At the open board at half-past three the market was steady and Erie sold at 69 1/2, New York Central 128 1/2, and Erie at 69 1/2. During the remainder of the afternoon there was very little business transacted, but prices were well supported and at the close at half-past five the following quotations were current:—Pacific Mail, 92; Ohio and Mississippi, 31 1/2; Cumberland preferred, 34 1/2; Western Union Telegraph, 38 1/2; Erie, 69 1/2; New York Central, 128 1/2; Erie, 69 1/2; Cleveland, 69 1/2; Michigan Southern, 84 1/2; Rock Island, 84 1/2; Northern and Western, 67 1/2; do preferred, 70 1/2; Fort Wayne, 105 1/2.

The foreign exchange market was firm but dull, the demand for bills, both for remittance against the May coupon sent from Europe for collection and from the importing community, being light. At the close balances on England at sixty days were quoted at 110 1/2, at thirty days, 110 1/2, and at sight, 109 1/2. Bills on Paris at sixty days, 5 1/2; at thirty days, 5 1/2, and at sight, 5 1/2. The extreme range of the gold market in the month of May in each year since the suspension of specie payments is thus shown:—

Highest.	Lowest.	Highest.	Lowest.
1862.....104 1/2	102 1/2	1865.....145 1/2	128 1/2
1863.....155 1/2	145 1/2	1866.....141 1/2	125 1/2
1864.....159 1/2	139 1/2	1867.....157 1/2	124 1/2

Consols and American securities were quoted thin in London to-day and on the previous days mentioned:—

March 12.	April 11.	May 12.
Consols.....71 1/2	83 1/2	84 1/2
Five-twenty.....71 1/2	83 1/2	84 1/2
Michigan Central.....80 1/2	83 1/2	84 1/2
Erie.....49 1/2	45 1/2	46 1/2

A committee of the Board of Trade of Boston have adopted resolutions in relation to the currency, which reflect the sentiment of that body in favor of approving the trial of the paper dollar. The views expressed with regard to the ultimate redemption of the debt in gold are sound; but the proposition to fund greenbacks into five per cent bonds is unequalled for, because it would involve undue contraction. As a counterpoise to the political power in favor of inflation in the West the

prevalence of such ideas as these merit attention, although it does not follow that the inflationists will not succeed in adding fifty or a hundred millions to the currency. The following are the resolutions referred to:—

Whereas, the money of the people and of the bondholders is being depreciated, and should be of full value; and whereas, the only good money known is specie or its equivalent;

Resolved, That any act of Congress passed in relation to fiscal questions should be such as would tend toward a resumption of specie payment.

Resolved, That no solvent individual, public or private, be allowed to leave obligations which are payable on demand temporarily unredeemed without offering to their holders the option of extending the term of payment to a date of interest; and that, therefore, the government of the United States is bound in honor to offer to every holder of legal tender notes the privilege of funding them on demand.

Resolved, That by offering to all holders of greenbacks their equivalent at par in United States bonds, principal and interest, in coin, and by prohibiting the banks from selling their gold received from the government, a gradual but steady withdrawal of debased currency and an accumulation of specie reserve would be effected, by which in due time, and without serious disturbance, the currency and the prices of commodities may be brought to gold value.

Resolved, That a law should at once be passed under which contracts made upon a gold or specie basis should be enforced according to the tenor of the contract.

The St. Louis, Alton and Terre Haute Railroad Company have declared a dividend of seven per cent cash on the preferred stock of the company, payable on the 15th inst.

The cashier of the First National Bank of Geneva, New York, contradicts the statement that that institution was affected in any manner by the recent failure of Mr. J. H. Messenger, that gentleman's connection with the bank having ceased in April, 1866.

The receipts for customs and the receipts, payments and balances in the Sub-Treasury in this city for the expired portion of the week have been as follows:—

Customs.	Receipts.	Payments.	Balance.
May 11.	\$488,985	\$445,088	\$5,303
May 12.	\$455,988	\$5,303	\$10,146
May 13.	\$1,843,183	\$1,560,631	\$10,146

The value of exports (exclusive of specie) from New York to foreign ports for the week ending to-day amounted to \$3,443,538, against \$3,188,021 the week previous.

SALES AT THE NEW YORK STOCK EXCHANGE.
